Proposals and Reference Information

Proposal No. 1

Appropriation of Surplus

The Company proposes to appropriate surplus as follows.

Matters related to year-end dividends

The Company regards return of profits to shareholders as an important management policy, and we will continue to make an effort to improvement of earning capacity through expansion of a strategic investment by M&A and an aggressive business investment for growth, as well as to work on improvement of the capital efficiency.

In terms of dividends, while fully taking into account both the consolidated operating results and the consolidated dividend payout ratio, we have the basic policy to increase dividends to shareholders continuously, targeting dividend on equity (DOE) of 4.0% or higher.

We have adopted DOE, the ratio of dividends returned from net assets, as a benchmark for ensuring consistent dividends regardless of temporary fluctuations in profits. Moreover, the KONDOTEC Group also strives to achieve return on equity (ROE), a benchmark of capital efficiency, of 10% or higher. Accordingly achieving this aim enables us to generate profits above a certain level each fiscal year. That culminates in higher consolidated net assets, which form the basis for determining the dividend, thereby making it possible for us to continuously increase dividends.

With respect to the year-end dividend for the current fiscal year, we seek to express our gratitude to our shareholders for their ongoing support by increasing the dividend by \$ 3 relative to that of the previous fiscal year to \$ 23 per share, having taken into account our earnings results and other such factors. This results in annual dividends of \$ 46 per share in conjunction with the interim dividend of \$ 23 per share previously paid.

| Category of dividend assets | Cash |
|---|--|
| Allotment of dividend property and their aggregate amount | ¥ 23 per share of the Company common stock Total dividends: ¥ 588,579,384 |
| Effective date of dividends of surplus | June 26, 2025 |
